Petros Asmamaw

PROFILE

Full-Stack Developer specializing in **React.js**, **Next.js**, and **MERN stack**, with a strong focus on **AI-powered applications and modern web architectures**.

Experienced in building **scalable, production-ready platforms**, including multi-portal systems, AI assistants, and real-time dashboards. Skilled in transforming complex ideas into **clean, user-friendly interfaces** and designing **secure backend systems with robust APIs**.

Strong expertise in **LLM integration, prompt engineering, and intelligent automation workflows**, delivering high-performance applications with modern best practices.

Work Experience

React.js Developer – Upwork Freelance
Dec 15, 2025 – Dec 16, 2025

PROJECT EXPERIENCE

- Qandil AI – Personalized Learning Platform
- Hospital Management Ecosystem (Patient • Doctor • Admin)
- BahiRoom Booking Ecosystem (Client • Hotel • Admin)
- Food Delivery Platform (Client + Admin)
- AI Applications & Systems

EDUCATION

Full-Stack Web Development Certification – 2025

- Mastered full-stack development using the MERN stack (MongoDB, Express.js, React, Node.js).
- Built scalable backend APIs, secure authentication, and dynamic front-end interfaces.
- Gained practical experience deploying projects on Vercel, Netlify, and cloud platforms.

React Specialist Certification

- Developed advanced React skills including functional components, hooks, and state management..

Projects

Qandil AI – Personalized Learning Platform

- Built a full-stack AI-powered learning system with **Next.js, React, Redux Toolkit**
- Implemented **AI assistant, document-to-notes generation, and chat workflows**
- Designed **multilingual UX with persistent chat history and smart prompting**
- Integrated backend services for scalable student support

Hospital Management Ecosystem (Patient, Doctor, Admin)

- Developed a **multi-portal MERN system** for healthcare operations
- Built shared authentication, protected routes, and centralized state
- Designed scalable APIs for real-world workflows and reporting

BahiRoom Booking Ecosystem (Client, Hotel, Admin)

- Created a **multi-application booking platform** with synchronized systems
- Implemented role-based dashboards and operational tools
- Used Redux Toolkit and modular APIs for performance and scalability

Food Delivery Platform (Client + Admin)

- Developed a full-stack platform with **ordering system and admin dashboard**
- Integrated **Stripe payments and secure authentication**
- Built responsive UI with seamless user experience

Technical Skills

Frontend Development

- React.js, Next.js, JavaScript (ES6+)
- Tailwind CSS, Responsive Design, Accessibility
- Redux Toolkit, React Router
- Pixel-perfect UI from Figma designs

Backend Development

- Node.js, Express.js
- REST API Development
- Authentication & Authorization (JWT, Supabase Auth, Better Auth)

Database & Data Systems

- MongoDB, PostgreSQL (SQL)
- Supabase, Airtable
- Scalable data modeling & query optimization

AI & Modern Technologies

- AI Application Development
- LLM Integration (Gemini API)
- Prompt Engineering & Response Optimization
- Semantic Search & AI Retrieval Systems
- Automation Pipelines & Agent Workflows

DevOps & Tools

- Git, GitHub
- Vercel, Netlify, Render
- CI/CD & Deployment Optimization
- Debugging & Chrome DevTools
